Liav Pinhas Electrical & Electronics Engineering Student

+972 52-506-3989 | liavpinhas@gmail.com | LinkedIn | Portfolio

Introduction

- Third-year Electrical & Electronics Engineering student at Ariel University, with a **96.55** cumulative average.
- Hands-on with circuit simulation (**PSIM, PSpice, Multisim**), **MATLAB** and core lab equipment.
- **Sayeret Golani** veteran and active IDF reserve commander, balancing leadership with full-time studies.
- Seeking a student position or entry-level engineering role in **power electronics** and **hardware development**, eager to contribute hands-on in the lab and in design.

Education

2024 – 2028 (expected) | B.Sc. Electrical & Electronics Engineering @ Ariel University (3rd year)

- GPA: **96.55** | Year 1: **98.6** (Dean's List – Certificate), Year 2: **95.05**
- Key Courses: Signals and Systems (100), Digital Signal Processing (100), Electromagnetic Fields (100), Digital Systems (100), Digital Circuits (98), Control Systems (96), Laboratory 1 (96), Semiconductor Devices (95).
- Current Coursework: Switched Mode Power Converters, Power Electronics, Energy Conversion, Linear Circuits, Introduction to Communication Systems, Laboratory 2.

Military Service & Leadership

2023 – Present | Team Commander → Acting Company Operations Officer | Sayeret Carmeli, IDF Reserves

- **Continued** to **lead** soldiers through complex operations, making real-time decisions and running systematic debriefs and lessons learned.
- **Planned** missions end to end and **coordinated** company schedules, briefings and presentations.
- **Commanded** the company's **drone team**, operating drones hands-on.

2019 – 2023 | Combat Team Sergeant | Sayeret Golani, IDF Special Forces

- **Served** as team sergeant in complex operations under pressure and uncertainty, **managing** weapons and specialized equipment, including **guided-missile** and **observation systems**.
- Awarded a **Certificate of Appreciation** from the Sayeret Golani Commander.

Experience

2023 – Present | Security Professional | Strategic Facilities

- **Maintained** strict adherence to safety protocols and operational procedures in a shift-based, high-responsibility environment, alongside full-time engineering studies.

Volunteering

- **2024 – Present | PERACH** – Mentored youth through the program.
- **2024 – Present | HaNamer Association** – Supported bereaved families of the Sayeret Golani community.
- **2025 – Present | Student Hub** – Coordinated community events.

Technical Skills & Academic Focus

- **EE Tools**: PSIM, PSpice, Multisim, MATLAB
- **Lab Equipment**: Oscilloscope, Power Supply, Function Generator, Digital Multimeter
- **Core Knowledge**: Semiconductor Devices, Analog & Digital Electronic Circuits, Electromagnetics, Signals & Systems, Control Systems
- **Academic Focus**: power electronics, energy conversion, electric machines
- **Languages**: Hebrew – Native. English – Fluent. | **Availability**: 2–3 days per week alongside studies
