Liav Pinhas

Electrical & Electronics Engineering Student | Ariel University

Rosh HaAyin, Israel | 052-5063989 | liavpinhas@gmail.com | linkedin.com/in/liav-pinhas-49030a3a6

SUMMARY

Electrical & Electronics Engineering student at Ariel University (entering 3rd year), with a 95.3 cumulative average and a 98.6 first-year average — Dean's List. Strong analytical foundation in signals, systems, and control, with hands-on programming (C++, MATLAB) and circuit simulation. Former combat team commander in an IDF special-forces unit, bringing proven leadership under pressure. Seeking a student position in electrical engineering.

EDUCATION

B.Sc. in Electrical & Electronics Engineering 2024 – Present

Ariel University · Entering 3rd year

- Cumulative average: 95.3 — Dean's List
- First-year average: 98.6 — ranked among the top students in the cohort
- Relevant coursework: Signals & Systems, Digital Systems, Electromagnetic Fields, Semiconductor Devices, Introduction to Control, Signal Processing, Computer Architecture, Circuit Theory, Probability & Statistics
- English proficiency: Exempt (highest university proficiency level)

MILITARY SERVICE

Combat Team Commander 2019 – 2022 (Reserve duty: 2023 – Present)

Sayeret Golani, IDF Special Forces

- Led teams of soldiers through complex, high-pressure operational environments, managing personnel and missions to ensure operational success.
- Recognized for outstanding leadership and performance.

EXPERIENCE & LEADERSHIP

Security Professional 2023 – Present

- Oversee security operations for strategic facilities in high-responsibility environments, maintaining strict adherence to safety and operational protocols.

Community Volunteer 2024 – Present

HaNamer Association, Sayeret Golani Alumni

- Provide ongoing support to bereaved families within the unit's community, applying strong interpersonal skills and emotional intelligence.

Operations Volunteer 2025 – Present

Rosh HaAyin Student Hub

- Coordinate and support community events and operational activities at a municipal student center.

Mentor 2024 – Present

PERACH National Mentoring Program

- Mentor youth in academic and personal development, strengthening communication and guidance skills.

SKILLS

Programming & Simulation: C++, MATLAB
EE Tools: PSpice, Multisim
Lab Equipment: Oscilloscope, Power Supply
Core Knowledge: Signals & Systems, Digital Systems, Electromagnetics, Control Systems, Semiconductor Devices, Circuit Analysis
Soft Skills: Leadership, analytical thinking, problem-solving, teamwork under pressure
Languages: Hebrew (native), English (fluent — exempt from university English requirement)
Availability: Available 2–3 days per week alongside studies
